

To Whom it may concern,

It is my pleasure to recommend Holden Marnell, who has been my student for three years. He has consistently demonstrated a positive attitude and curiosity so essential to learning and he has been a leader in class. Holden has led the way and very naturally mentored the younger students. He has received many certifications in networking, cybersecurity and computer hardware and operating systems. He has also shown his skills in programming and problem solving. I believe he will show the same commitment and hard work in everything he does.

Holden always completes his work on time and with great attention to detail and accuracy. He consistently places at the top of the class in assessments and assignments because he works extremely hard and has natural ability. One of his greatest strengths is the ability to master new material quickly and put it to practical use.

Holden is trustworthy, kind, reliable, good-humored and a friend who supports others in and out of the classroom. He is a pleasure to have in class, and his positive attitude and belief in himself are tremendously admirable virtues. I am confident that he will continue to demonstrate the same diligence, perseverance, and optimism that he showed during the time I have known him. Please feel free to contact me with any questions.

Sincerely,

Mr. Austin
